Label Printer Specifications

Standard Features	Print Methods: Direct thermal and Thermal Transfer (optional)
Printer Specifications	Resolution: 203 dpi (8 dots/mm)
	300 dpi (12 dots/mm)
	Memory: 128MB Flash, 128MB RAM or Above as best
	Print width: 4.09"/104 mm
	Print length: 203 dpi: 157"/3,988 mm and 300dpi: 73"/1854 mm
	Media sensors Reflective, Transmissive
Media Characteristics	Maximum label and liner width: 4.50"/114 mm
	Minimum label and liner width: 0.75" (19.4 mm)
	Maximum non-continuous label length: 39"/991 mm
Operating temperature	Operating temperature: 40F (5C) to 104F (40C)
Physical Dimensions & Weight	Width: 245 mm As best
	Height: 270 mm As best
	Weight: 10 kg) oe less
Programming Languages	Core programming languages: ZPL I/ZPL II
Driver	Suitable for windows 7 ,8, 10 ,11
Interface	USB Interface & Ethernet Interface (optional)
Daily Printed Duty Cycle	from 3,500 to 6,000 /day
Printing Roll/Label	Suitable for different size and label thickness
Recommended Brands	heavy duty printer
Power and cable	Power supply AC 240v , MK cable
Warranty	3 years or above
